

Ms Helen Bushell
Mrs Pamela Topping

To whom it may concern we the undersigned would like to object to the opening between 21 and 23 Montgomery Road being alley gated. The reasons for this are, we believe that it could potentially be life threatening, due to the fact that the path that runs from Chestnut lodge to ST Michaels view and ST Michaels jubilee golf club is a well used footpath, we understand that it is technically designated a cycle path but has always been used as a public footpath. If this area is gated we have concerns that it could lead to people being vulnerable to attack as there would be no way of getting off the path should this happen. Also children and adults use this pathway to and from school or the park they do this to avoid crossing Dundalk road as this is a busy road for traffic during peak times, the crossing lights in the location do not work properly as there have been quite a few near misses when people are attempting to cross when they have the right of way. We would ask that you give this matter due consideration and look forward to hearing from you in due course.
