1.0 PURPOSE OF THE REPORT

1.1 The purpose of this report is to provide the Health and Wellbeing Board with the draft One Halton Health and Wellbeing Strategy (2017-2022).

2.0 RECOMMENDED: That the Board comments on the draft Strategy and supports the development of Action Plans for each priority.

3.0 SUPPORTING INFORMATION

3.1 The One Halton Health and Wellbeing Strategy is an overarching strategy to improve health in Halton. The new Strategy will build upon the successes of the previous strategy and outlines the key priorities the Health and Wellbeing Board will focus on over the next five years (2017-2022). It provides a framework for local action. A set of action plans with timescales and leads are being developed.

3.2 The new Strategy provides:
   - An overview of One Halton.
   - Principles of how we will work together.
   - A joint vision, new priorities and how and why these were chosen,
   - An updated health and wellbeing profile for Halton.
   - An outline of the progress made since 2013 and the challenges that remain.
   - Examples of innovative work already being undertaken within Halton that take a place based approach, working with local people and using local assets e.g. Well North, Healthy New Towns.
   - What we will do as a system at scale to make a difference.
   - How we will measure success.
3.3 The Strategy has been developed using a partnership approach and was developed by a multi-agency steering group. The group was co-chaired by the Director of Public Health and Director of Commissioning for NHS Halton CCG. It included membership from NHS Halton CCG, Health Watch, Halton & St Helens Council for Voluntary Services, HBC Children’s Services, HBC Adult Social Care, HBC Public Health and a representative of the public.

3.4 The Strategy recognises that we will only be successful if all partners (including local people) play their part. The Strategy therefore outlines agreed principles of how we will work together. In order to deliver the One Halton Health and Wellbeing Strategy all partners will work in the following ways:

- Engage with and understand the needs of our local communities.
- Intervene early to prevent ill health.
- Early identification and support for clinical conditions.
- Skills developments to ensure people have the confidence to manage their own health and wellbeing.
- Ensure people are at the centre of planning and delivery of services.

3.5 Available evidence of health needs has been used to identify issues of particular significance for the borough. The priorities are backed by a strong evidence base considering the local JSNA, Right Care benchmarks and performance against the range of national and local targets. They include:

- Children and Young People: improved levels of early child development
- Generally Well: increased levels of physical activity and healthy eating and reduction in harm from alcohol
- Long-term Conditions: reduction in levels of heart disease and stroke
- Mental Health: improved prevention, early detection and treatment
- Cancer: reduced level of premature death
- Older People: improved quality of life

3.6 We believe that success in delivering against the Strategy can only be achieved by working in partnership with local people. Therefore, in developing the new Strategy we have consulted with a wide range of Halton residents to ensure that the principles and priorities are reflective of the experience and needs of our local communities. Engagement was undertaken by the voluntary sector, Health Watch and One Halton portfolio directors using pre-existing networks and forums for engagement e.g. Halton Peoples Health Forum. The feedback received has been used to inform the new One Halton Health and Wellbeing Strategy.

3.7 The final version of the Strategy will be shared with all key partners (including local people) and will be available online.
4.0 POLICY IMPLICATIONS
4.1 The Health and Wellbeing Strategy will inform collaborative action for the Council, NHS, Social Care, Public Health and other key partners as appropriate.

5.0 OTHER/FINANCIAL IMPLICATIONS
5.1 The strategy and its associated action plans will inform future activity and spending across the health and care system. Any financial risk associated with the implementation of these will need to be shared across all relevant organisations. Agencies should work together to seek additional funding where available e.g. bids for external grants.

5.2 It should be noted that these prevention programmes will enable invest to gain in terms of GP time and expense and invest to save in terms of avoidable hospital admissions, time lost at work and social costs.

6.0 IMPLICATIONS FOR THE COUNCIL’S PRIORITIES
6.1 Children & Young People in Halton

Improving the Health and Wellbeing of Children and Young People is a key priority in Halton. The Health and Wellbeing Strategy will include child development as a priority.

6.2 Employment, Learning & Skills in Halton

The above priority is a key determinant of health. Therefore improving outcomes in this area will have an impact on improving the health of Halton residents

6.3 A Healthy Halton

All issues outlined in this report focus directly on this priority.

6.4 A Safer Halton

Reducing the incidence of crime, improving Community Safety and reducing the fear of crime have an impact on health outcomes particularly on mental health.

6.5 Halton’s Urban Renewal

The environment in which we live and the physical infrastructure of our communities has a direct impact on our health and wellbeing.

7.0 RISK ANALYSIS

7.1 Developing the Health and Wellbeing Board Strategy does not present any obvious risk however, there may be risks associated with the resultant
recommendations. These will be assessed as appropriate.

8.0 EQUALITY AND DIVERSITY ISSUES

8.1 This is in line with all equality and diversity issues in Halton.

9.0 LIST OF BACKGROUND PAPERS UNDER SECTION 100D OF THE LOCAL GOVERNMENT ACT 1972
