## QUARTERLY MONITORING REPORT

**DIRECTORATE:** Environment

SERVICE: Environmental & Regulatory

PERIOD: Quarter 2 to period end 30th September 2008

#### 1.0 INTRODUCTION

This quarterly monitoring report covers the Environment & Regulatory Services Department second quarter period up to 30 September 2008 It describes key developments and progress against all objectives and performance indicators for the service.

The way in which traffic light symbols have been used to reflect progress to date is explained in Appendix 7.

It should be noted that this report is presented to a number of Policy and Performance Boards. Those objectives and indicators that are not directly relevant to this Board have been shaded grey.

#### 2.0 KEY DEVELOPMENTS

# **Landscape Services Division - Restructure**

The restructure of the Landscape Services Division continues. By the end of Quarter 2 the External Contracts Section had been created and all posts had been filled. The second phase of the restructure, the creation of a Parks Section had progressed to near completion. The posts of Park Manager, Neighbourhood Spaces Manager (Parks), 4 x Team Leader (Parks) have been filled. Adverts were placed in August for 12 x Parks Maintenance Operative posts and shortlisting for interview is currently underway.

# Landscape Services Division - Halton Housing Trust Grounds Maintenance Contract 2009 - 2012

In July 2008 HHT (Halton Housing Trust) advertised a Contract for delivery of its Landscape Maintenance from April 1st 2009 for a three year period. Currently the Landscape Services Division, External Contracts Section deliver this service to HHT. On the 21st August 2008 the Landscape Services Division submitted a PQQ which was formally accepted as valid by HHT on the 2nd September 2008. The advertised contract is being let through a Competitive Dialogue Process. The Landscape Services Division have now entered that process.

### Planning and Policy Division - Development Control Statistics

Development Control Summary Stats for Q2:

These applications are those that result in the biggest changes to the built infrastructure of the Borough. More information on any application can be found on the online planning system http://www.halton.gov.uk/planningapps.

# Planning and Policy Division - Local Development Framework Update The following progress has been made:

Two planning officers have been recruited to fill vacant posts. These posts will ensure that the Council can produce the Core Strategy for the borough.

The consultation period on the Waste Development Plan Document has changed to be 17th November to 9th Jan 2009.

The Strategic Housing Land Availability Assessment is likely to be placed on public consultation 10th November to 22 December 2008.

Exec Board gave a resolution to adopt the Sandymoor SPD on 24th September and Exec Board Sub has approved the draft Halton Village Conservation Area Appraisal for a period of public consultation.

Stakeholder consultation on the Planning for Risk Supplementary Planning Document closed at the end of September.

Regional Spatial Strategy for the North West was adopted on 30th September. The Joint Employment Land Study (Halton, Knowsley, Sefton and West Lancs Councils) is progressing well.

# **Waste Management Division - Recycling Service Extension**

The extension to the Kerbside Multi-Material Recycling Scheme took place in this quarter. Approximately 26,000 households in the borough are now included in this scheme, which enables residents to recycle glass bottles and jars, plastic bottles, paper, cardboard and metal cans in their blue bins.

#### 3.0 EMERGING ISSUES

# Landscape Services Division - Use of Red Diesel by fleet engaged in Horticultural activities.

During the month of August the Transport Divisional Manager received information that indicated that HMRC (Her Majesties Revenues & Customs) seemed to have changed their policy with regards to the use of Red Diesel. It appeared that a Local Authority had been told that it must not use Red Diesel for certain horticultural operations. A meeting was held on the 9th September between the Divisional Managers of Landscape Services and Transport, the Operational Spaces Manager from Landscape Services and Rob Barnet from Legal. The outcome of the meeting was that it appeared that HBC are following the rules but that two tractors which are primarily engaged on sports pitch

maintenance should in future use white diesel. A week after the meeting HMRC stopped a Landscape Services vehicle and questioned the use of Red diesel. The Divisional Manager for Transport has set up a meeting with HMRC to discuss this issue. The meeting will be held on Wednesday the 8th October 2008. If Landscape Services has to move away from using red diesel its fuel costs will double. This will have a significant impact on service budgets.

Planning and Policy Division - Growth Point, Mersey Gateway and RSS Alasdair Cross has been seconded from the Spatial Planning team to the post of Growth Point officer until January 2009.

Addressing the Mersey Gateway needs in a land use context. This requires the production of 2 Supplementary Planning Documents a) Southern Widnes SPD b) a revised Runcorn Old Town Centre SPD. GVA Grimley has been appointed to carry out these and work is progressing.

Whilst the Regional Spatial Strategy (RSS) has recently been adopted, a Partial Review is underway and the recently created 4NW regional body have also been tasked with producing a Single Regional Strategy, incorporating the existing RSS and the Regional Economic Strategy.

Waste Management Division - Landfill Allowance Trading Scheme (LATS) A shortfall in Landfill Allowances has been identified from 2009/10 onwards. As a result, options to avoid potential financial penalties are being considered. One option currently being considered is to purchase additional allowances until facilities required to divert waste from landfill are in place.

#### 4.0 PROGRESS AGAINST MILESTONES/OBJECTIVES

All service plan milestones are being reported this quarter. (Those milestones in *italic* text are 'other' milestones that are routinely reported in quarters 2 and 4). 4 milestones relating to the objective relating to the Contaminated Land Inspection Strategy have not been reported this quarter. For further details please refer to Appendix 1.

#### 5.0 SERVICE REVIEW

### **Waste Management Division - Kerbside Recycling Services**

Work has commenced on the next phase of the Council's Waste Action Plan, which is to maximise the provision of blue and green wheeled bins by providing such bins to all suitable and accessible properties in the borough. The review of areas where bins are not currently provided has commenced and, once completed, it is planned that bins will be delivered to householders by 31st March 2009.

### 6.0 PROGRESS AGAINST KEY PERFORMANCE INDICATORS

| Total 13 6 0 1 |
|----------------|
|----------------|

6 "Key" indicators have not been reported this quarter. Of the remaining 7, 6 are on track to meet their targets and 1 has received a red traffic light. For further details please refer to Appendix 2.

#### 6.1 PROGRESS AGAINST OTHER PERFORMANCE INDICATORS

It has not been possible to report on 12 of the "Other" indicators. For further details please refer to Appendix

#### 7.0 PROGRESS AGAINST LPSA TARGETS

For details against progress towards LPSA targets, please refer to Appendix

### **8.0 RISK CONTROL MEASURES**

During the production of the 2008-09 Service Plan, the service was required to undertake a risk assessment of all Key Service Objectives.

Where a Key Service Objective has been assessed and found to have associated 'High' risk, progress against the application of risk treatment measures is to be monitored, and reported in the quarterly monitoring report in quarters 2 and 4.

# 9.0 PROGRESS AGAINST HIGH PRIORITY EQUALITY ACTIONS

During 2007/08 the service was required to undertake an Equality Impact Assessment. Progress against actions identified through that assessment, with associated High priority are to be reported in the quarterly monitoring report in quarters 2 and 4.

This indicator can only be provided on an annual basis retrospectively as it involves site visits to monitor development on the ground. The net figure for 2007/08 was 314 net dwelling gain, although the gross dwelling gain was 546. There was significant demolition in Castlefields, Runcorn accounting for the difference between the gross and net figures. Due to the problems in financial markets restricting mortgages and development scheme funding the current outlook gives an amber light despite no figures being available. |

### **Comments**

Overall the service is operating better than anticipated.

The under-spend on employees is a result of delays in filling vacant posts.

The under-spend on landscape maintenance is a result of delays in implementing projects.

## **Comments on the above figures:**

The under-spend on labour is a result of delays in filling vacant posts. The under-spend on supplies & services is as a result of a delay in commissioning a project. The over-spend on hired services is a s a result of a 2007/08 invoice paid in the current year.

Contract price discrepancies have resulted in a prudent approach to waste disposal expenditure.

Income from Trade Waste & Bulky Waste continues to be a problem. It is unlikely that we will achieve the annual target.

### **Comments on the above figures:**

In overall terms revenue spending at the end of quarter 2 is below budget profile.

With regards to expenditure, employees is below budget to date due to staff vacancies within the department.

In terms of income, an estimated budget of £197,000 has been identified against the Housing & Planning Delivery grant. However, the provisional allocation is £246k. With regards to planning fees, income received to date is above budget to date. However, due to a slow down in the development industry this income was below budget by £173k at the end of last financial year. Therefore, it is possible that there may be lower than budgeted income achieved at the end of this financial year.

## Comments on the above figures:

In overall terms, revenue net expenditure at the end of quarter 2 is below budget profile.

With regards to expenditure, staffing is below budget to date due to a combination of vacancies and staff on maternity leave within the Environmental Health section. Although supplies and services appears to be below budget to date this is not the case when the commitments are taken into account.

With regards to income, Building Control fees are less than budget to date as a result of increased competition from the private sector and the current economic climate. This item underachieved income by £68k last financial year and is forecast to underachieve again this financial year. Hence this budget will be monitored closely throughout the year.

At this stage it appears the only significant issue is the low Building Control income.
