**REPORT TO:** Executive Board

**DATE:** 16 November 2023

**REPORTING OFFICER:** Operational Director – Finance

**PORTFOLIO:** Corporate Services

**SUBJECT:** Councilwide Spending as at 30 September 2023

**WARD(S):** Borough-wide

#### 1.0 PURPOSE OF REPORT

1.1 To report the Council's overall revenue and capital net spending position as at 30 September 2023 together with a 2023/24 forecast outturn position.

## 2.0 RECOMMENDED: That;

- (i) All spending continues to be limited to only absolutely essential items;
- (ii) Executive Directors continue to take urgent action to reduce or defer spending for the remainder of the current financial year, or secure additional funding;
- (iii) Progress with implementation of the three years approved budget savings outlined in Appendix 4, be noted;
- (iv) Council be requested to approve the revisions to the Capital Programme as set out in paragraph 3.20.

#### 3.0 SUPPORTING INFORMATION

#### Revenue Spending

- 3.1 Appendix 1 presents a summary of spending against the operational revenue budget up to 30 September 2023 and Appendix 2 provides detailed figures for each individual Department. In overall terms, net Council spending as at 30 September 2023 is £3.572m over budget. The outturn forecast for the year estimates that net spending will be over budget by £8.108m.
- 3.2 The forecast continues to show overspend positions across the majority of departments. The figures reflect a prudent yet realistic view of spend and income levels through to the end of the year.

- 3.3 The Q2 position is a slight improvement on that reported at Q1. The forecast outturn at that point was an estimated overspend against budget of £8.416m. Whilst that position shoes a marginal improvement at Q2, it is still clear that a lot needs to be done over the remaining six months of the year to reduce the level of net spend.
- 3.4 The biggest pressure on the budget continues to be within the Children & Families Department, where forecast net spend for the year has increased by £0.681m over the past three months. This is predominantly as a result of increased spend against agency staff and staffing costs over and above the budgeted establishment.
- 3.5 Offsetting this increase in spend is a forecast gain in interest income through to 31 March 2024. The Council's capital cash reserves continue to be in a strong position and the estimate of cash held is greater than expected at this point which has allowed the Council to invest with favourable interest rates. As a result, the net interest income generated within Corporate & Democracy has increased by £0.696m.
- 3.6 As reported at Q1 the level of available reserves the Council holds (see para 3.15) is low and insufficient to meet such a significant overspend position. Whilst the forecast outturn has improved over the last three months it continues to be unsustainable for the Council and action needs to continue to reduce spending across all departments.
- 3.7 Included within the departmental figures is the cost of the 2023/24 pay award. This has been estimated at an increase of £1,925 or approximately 6% (excluding on-costs) for all staff with the exception of senior officers where a pay award of 3.5% has already been agreed. Any increase above the £1,925 proposed award will place further strain on the Council's budget.
- 3.8 One of the main contributory factors to the forecast deficit position for the year is the cost of agency staff. This is mostly evident within the Children & Families Department and the Care Homes Division. Whilst considerable work is ongoing to support recruitment and retention of permanent staff, the impact is not yet being felt of any major reduction to agency numbers. A recruitment and retention scheme has been introduced for Children's social care workers and there is also a rolling recruitment programme in place within the four Council run care homes. Analysis of agency spend for the first two quarters of the year together with comparative analysis of 2022/23 costs is included in the table below. It shows an increase in costs over the last three months, which if it continues at the current rate will mean estimated agency costs for the year will be similar to last year.

| Total                             | 3,188 | 3,462   | 6,650 | 13,605  |

- 3.9 Inflation as at September 2023 is running at 6.7% for CPI and 9.1% for RPI. Future forecasts for inflation remain varied, however, the general view is that rates will reduce by around 3.0% over the next six months. Longer term rates remain under review and will be reflected in the Council's medium term financial forecast.
- 3.10 High pay and price inflation rates continue to have a serious negative impact upon the Council's financial position. There therefore continues to be an urgent need for all departments to cut any non-essential spending and to implement any agreed or proposed efficiencies as soon as possible.

#### **Revenue - Operational Spending**

- 3.11 Operational net spending for the first six months of the year is higher than the budget to date by £3.572m Based on current forecasts it is estimated net spend will be over the approved budget for the year by £8.108m if no further corrective action is taken.
- 3.12 Within the overall budget forecast position for the quarter, the key budget variances are as follows;

#### (i) Children and Families Department:-

The projected outturn forecast is for the Department to overspend by £8.560m against a net budget of £32.063m. Forecast net spend has increased by £0.681 over the last three months.

#### <u>Staffing</u>

Employee costs are £1.525m above budget at the end of Quarter 2. There continues to be a heavy reliance upon agency staff to fill vacancies across the structure including Social Workers, Practice

Leads and Divisional Managers. This combined with a number of agency staff recruited in addition to the current staffing structure is the cause of this overspend. Social worker recruitment is proving difficult due to an extremely competitive market and highly inflated agency pay rates. Spend on agency staff at the end of Quarter 2 is £2.900m or 51% of employee budget to date. The final outturn for employee costs is expected to be £3.439m overspent. This is £0.537m more than was forecast at quarter 1 and is due to the increased numbers of agency staff, including senior manager roles, along with the extension of agency staff to the end of the financial year that were previously due to end in November 23.

Within the employee forecast spend to the end of year, an element has been included for the 2023/24 pay award (yet to be agreed) based on the latest available information. The forecast also assumes there will be reduced reliance upon agency staff as the year progresses and take-up of the recruitment and retention scheme takes effect.

#### Supplies & Services

Supplies and Services expenditure is £0.532m above budget at the end of Quarter 2 with a forecast outturn variance against budget of £1.022m. Additional growth was provided of £0.314k to cover the increase in court costs and related legal spend. However, supplies and services is diverse and high levels of spend relating to a number of areas including nursery fees, consultancy, translation costs, equipment and travel are adding pressure to this budget. The outturn position has increased by £0.153m since quarter 1, with the majority of this relating to IT computer licensing, in particular the renewal of the Eclipse contract.

### Out of Borough Residential Care

Out of Borough Residential Care continues to be the main budget pressure for the Children and Families Department as the costs of residential care have continued to rise year on year. This budget was given additional growth of £4.052m for this financial year to alleviate the pressure, however, residential care remains £1.313m over budget at the end of quarter 2, with an anticipated outturn of £2.776m over budget at the end of the year. Forecast spend for the year is expected to be £1.963m greater than in 2022/23.

The main reason for such a high increase in spend can be attributed more to the rise in costs of individual packages rather than an increase in numbers in care. For example, there are currently six children with packages costing over £9k per week. The table below illustrates the trend towards numbers of children accommodated in higher cost packages, with the numbers in lower cost packages reducing.

| Parent & Child | £2000 - £5500  | 5                               | 393,882                     | 4             | 530,234                     |
| Total:         |                | 70                              | 16,450,793                  | 67            | 15,777,052                  |

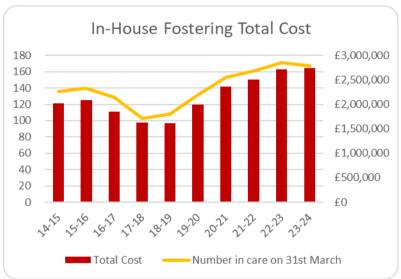

Work to reduce the numbers in residential care has so far avoided additional costs of £1.824m by the timely transfer of placements to lower cost Leaving Care packages, the reduction of additional support packages where possible, and re-unification of young people with their families where appropriate. It is hoped that continued scrutiny will bring down the current projected costs of residential placements, but the costs will remain high and continue to be a considerable pressure on the budget.

### **Foster Care Provision**

Although in-house fostering provision has increased enabling more young people to be accommodated in house, recruitment has slowed lately which is consistent with the market in general. Increasing numbers of children in care and insufficient in-house fostering provision has meant increased reliance on Independent Fostering Agencies (IFA's). Higher numbers of children placed within IFA provision and increased IFA rates has resulted in an outturn forecast overspend of £0.611m. Spend in this area is expected to be around £0.769m more than was the case in 2022/23.

The graphs below show the increased demand and spend on IFA placements whereas in house provision has become static over the last two financial years.

### (ii) Adult Social Care Directorate:-

#### Community Care

Community Care expenditure is over budget profile at the end of Quarter 2 by £0.576m and is anticipated to be overspent against budget by £1.173m at the end of the financial year. This is a reduction in the forecast of £1.476m reported at Q1. The main reason for the overspend is the increased uptake of Direct Payments, further details are provided below. This is a better position than reported at Quarter 1 due to the recovery plan which is being actioned. To date it has realised savings of around £1.3m (full year effect) however, some of those savings have been negated by increased demand for services and/or the increased cost of packages of care due to increasing needs.

#### Residential & Nursing Care

The Summer months witnessed a slight decrease in the number of residential & nursing placements compared to the start of the

financial year, however, numbers started to increase from August and now stand at 500 placements. The average, for this financial year is 492 placements compared to 477 placements for the same time last year (April-September 2022), an increase of 3%. At the current average weekly rate this equates to 0.735m per annum.

The average cost of a package of care has increased 9% from £864 in April to £942 in September suggesting an increase in the complexity of care packages. Not only is demand increasing but complexities of care are too, exerting further pressure on the budget. This is reflective of a borough with an ageing population in a deprived area.

### **Direct Payments**

The demand for Direct Payments continues to increase, often as a default position due to the current domiciliary provider being unable to pick up additional care packages. Agency usage via direct payments results in a higher hourly rate, some as much as £28 per hour (42.7%) compared to the domiciliary provider rate of £19.61 per hour. Some agencies also charge different rates for weekends and double time for Bank Holidays placing further pressure on the budget.

## **Domiciliary Care & Supported Living**

Currently there are 718 service users receiving a package of care at home compared to 705 in April, a slight increase of 1.8%. However, there are more service users in receipt of domiciliary care now than during 2022/23 The average number for the first half of this financial year is 709 compared to 690 for the same period last year, an increase of 2.8%.

The average cost of a package of care has increased from £417 in April to £442 in September, an increase of 6%. The full year effect of the increase in numbers illustrated above is circa £0.3m based on current average unit costs.

#### Care Homes

The quarter 2 spend across the Division is over budget profile by £0.639m. The forecast for the end of year is an estimated outturn position of £1.466m over budget, this is however, a much improved position from the £1.914m forecast reported at quarter 1.

The reduction of £0.448m in the forecast outturn position relates to receipt of Market Sustainability Improvement Fund grant of £0.232m to help with workforce capacity. In addition, it is currently forecast there will less demand for agency staffing over the second half of the year.

Employee related expenditure is over budget profile at the end of quarter 2 by £0.594m, with the expected outturn position being £1.338m over budget.

There remains a high number of staff vacancies across the care homes. A proactive rolling recruitment exercise is ongoing within the care homes and is supported by HR. The aim is to speed up the recruitment process to fill all current vacancies within the care homes and reduce reliance upon agency staff.

## (iii) Education, Inclusion and Provision

It is expected that departmental net spend for the year will be £0.767m higher than the total budget of £8.614m.

Schools Transport is the main budget pressure for Education, Inclusion and Provision. Whilst the Council has a statutory responsibility to provide Special Educational Needs (SEN) pupils with transport, the demand for transport is increasing in line with the increasing number of pupils with SEN within the Borough.

The table below provides a breakdown between in-borough and out-of-borough transport provision.

|                | 2023-24 as at Q2 |                    |       |                   |                          |  |  |  |
|----------------|------------------|--------------------|-------|-------------------|--------------------------|--|--|--|
| Area           | No. of Users     | Budget Spend £'000 |       | Variance<br>£'000 | Average Cost<br>per User |  |  |  |
| In Borough     | 402              | 1,104              | 1,478 | (374)             | £3,676                   |  |  |  |
| Out of Borough | 116              | 426                | 1184  | (758)             | £10,207                  |  |  |  |
| Total          | 518              | 1,530              | 2,662 | (1,132)           |                          |  |  |  |

At quarter 2 there are 518 service users, the majority of which attend schools within the Borough. Both are overspending compared to budget, however, the out-of-borough forecast overspend is far greater than that for in-borough and the average cost per user is nearly three times as much. The demand for the School Transport service is increasing in line with the increasing number of pupils with SEN within the Borough.

### (iv) Community and Greenspaces

The net department spend is forecast to be over budget for the year by £0.564m, an improvement on the forecast budget variance of £0.740 reported at guarter 1.

The main reasons for the adverse budget variance is due to a shortfall on forecast income against budget. Sales income for the year is expected to underachieve compared to the budgeted income target. Shortfalls in income in the Leisure Centres and the Stadium, plus a reduction in room hire at Community Centres and Libraries are forecast to contribute towards lower income levels. A shortfall in School Meals SLA income is also forecast by year-end however, this may be mitigated by reduced staffing costs.

## (v) Corporate and Democracy

To date Corporate and Democracy net spend is £2.270m under the budget to date and it is currently forecast that net spend for the year will be below budget by £4.717m.

Included within the above figures are both general and specific contingency budgets. This includes a contingency for continuing budget pressures within social care services and recognises that efforts to control and reduce spending within these areas is part of a longer term plan. It is currently forecast that the contingency of £3.271m will help support overspending areas elsewhere within the budget, but this may be dependent upon other calls on the contingency budget arising.

Interest rate rises by the Bank of England have increased the amount of interest income which the Council is able to generate from its cash investments. It is currently forecast that by year-end the Council will be able to generate an additional £1.007m in interest income than was forecast at budget setting. This position is helped by the Council maintaining higher cash reserves than expected at the time the budget was set.

#### **Collection Fund**

- 3.13 Council tax collection for the first half of the year is 53.9%, down 0.52% on this point last year. Cash collection for the year to date is £42.4m, this includes £1.3m collected in relation to previous year debt.
- 3.14 Business rates collection for the first half of the year is 56.4%, down by 5.2% on this point last year. Cash collected for the year to date is £34.1m, this includes £0.7m collected in relation to previous year debt.

#### **Review of Reserves**

- 3.15 As at 31 March 2023 the Council's General Reserve was £5.147m, which represents 3.6% of the Council's total net budget. This is considered to be a minimum level required given the overall size of the Council's budget..
- 3.16 As at 30 September 2023, the balance of Council earmarked reserves stood at £95.928m, of which £73.524m relates to the Mersey Gateway project, therefore the Council's remaining reserves total £22.404m.

3.17 Summarised below are the earmarked reserves held at 30 September 2023, categorised into the reasons for which they are held

| Category                   | Balance as at<br>30/09/2023<br>£'000s |
|----------------------------|---------------------------------------|
| Future Revenue Commitments | 1,926                                 |
| Mersey Gateway             | 73,524                                |
| Grants                     | 11,054                                |
| Capital                    | 1,180                                 |
| Contractual                | 8,244                                 |
| Total                      | 95,928                                |

- 3.18 The Mersey Gateway reserve is ringfenced to the Mersey Gateway project. They currently form part of the five year review of the project with the Department for Transport and a decision will be made shortly regarding their future use. It is currently expected that a share of the balance will be earmarked for the Council, with the remainder being returned to the Department for Transport.
- 3.19 The current value of reserves held for future revenue commitments is a major concern. The balance of £1.926m is not sufficient to meet the forecast outturn overspend position for the year. A share of Mersey Gateway reserve will help with this, but it is clear there needs to be a significant reduction in spending by all departments over the coming months to reduce the forecast outturn overspend.

#### **Capital Spending**

- 3.20 The Capital Programme has been revised to reflect a number of changes in spending profiles and funding as schemes have developed and these are reflected in the Capital Programme presented in Appendix 3. The schemes which have been revised within the programme are as follows;
  - i. Schools Capital
  - ii. Police Station Demolition
  - iii. Woodend Former Unit 10
  - iv.Runcorn Waterfront Residential Development
  - v. Changing Places.
- 3.21 Capital spending at 30 September 2023 totalled £20.118m, which represents 90% of the planned spending of £22.336m at this stage. This represents 30% of the total Capital Programme of £31.777m (which assumes a 20% slippage between years).

## **Approved Savings**

- 3.22 On 01 February 2023, Council approved budget savings for the three years from 01 April 2023 to 31 March 2026. The purpose of approving savings for the latter two years, was to provide the necessary time required to plan and deliver certain savings.
- 3.23 Progress with delivering all three years' savings has been reviewed and Appendix 4 provides details of the savings along with RAG rated information regarding the action taken to date to implement them.
- 3.24 At this stage the majority of savings are on track for implementation, although in a number of cases additional work is required or alternative savings may need to be identified.

#### 4.0 CONCLUSIONS

- 4.1 As at 30 September 2023, net revenue spend is £3.572m over the budget to date.
- 4.2 The forecast outturn currently estimates that spending will be £8.108m over budget for the year, which would have a severe impact upon the Council's reserves.
- 4.3 It is therefore essential that all departments continue to ensure all spending continues to be restricted to only essential items throughout the remainder of the financial year.
- 4.4 Executive Directors should continue to take urgent action to reduce spending and/or increase income generation, in order to minimise the outturn overspend.

## 5.0 POLICY AND OTHER IMPLICATIONS

5.1 None.

## 6.0 IMPLICATIONS FOR THE COUNCIL'S PRIORITIES

6.1 There are no direct implications, however, the revenue budget and capital programme support the delivery and achievement of all the Council's priorities.

### 7.0 RISK ANALYSIS

- 7.1 There are a number of financial risks within the budget. However, the Council has internal controls and processes in place to ensure that spending remains in line with budget as far as possible.
- 7.2 A budget risk register of significant financial risks has been prepared and is monitored on a quarterly basis.

- 8.0 EQUALITY AND DIVERSITY ISSUES
- 8.1 None.
- 9.0 **CLIMATE CHANGE IMPLICATIONS**
- 9.1 None
- 10.0 LIST OF BACKGROUND PAPERS UNDER SECTION 100D OF THE LOCAL GOVERNMENT ACT 1072
- 10.1 There are no background papers under the meaning of the Act
