### HWB3 CHIEF SOCIAL WORKER FOR ADULTS ANNUAL REPORT: 2018 TO 2019 - SOCIAL WORK LEADERSHIP IN CHANGING TIMES

The Board considered an overview of the Chief Social Worker (CSW) for Adults Annual Report 2018-19. The CSW worked from Government Office and her Annual Report which was themed around 'social work leadership in changing time' set out:

- How social workers were taking a practice leadership role in delivering safe and best outcomes for people with health and care needs; and
- Priorities over the coming year to further raise the quality and profile of adult social work across an integrated system.

The Annual Report also offered examples of social workers demonstrating leadership, professional oversight and co-operation with individuals, families and wider health and care sector. It also looked at the way organisations collaborated across health, community and voluntary sectors to maintain people's quality of life and independence and the CSW priorities for 2019/20.

The Board was also advised on the role of the Principal Social Worker (PSW). The Care Act 2014 stated that local authorities should arrange to have a PSW in place who was a qualified and registered social work professional practice lead who would oversee excellent social work practice. It was the Principal Social Workers role to take a professional leadership role across the organisation and act as a bridge for better communication and understanding between Senior Management and Social Workers. The

report highlighted areas of progress achieved by the PSW during the past year.

RESOLVED: That the Board

1. note the Chief Social Worker's annual report; and
2. recognise the role of the Principal Social Worker Adults and the progress to date.

#### HWB4 FALLS STRATEGY

The Board considered a copy of the Falls Strategy 2018-2023. The Strategy was first developed in 2013 and was now due for review. The Board was advised that the primary aims of this Strategy were to:

- Reduce the numbers of serious injuries that result from a fall;
- Reduce the number of Emergency hospital admissions for injuries due to a fall (65+);
- Reduce the number of Emergency hospital admissions due to fracture of neck of femur (65+);
- Reduce the numbers of falls that affect older people and those at higher risk of falling;
- Commission an integrated, evidenced based, falls prevention pathway across Halton; and
- Reduce the fear of falling among older people.

The Board discussed the collaboration of all partners on the development of the Falls Strategy. It was reported that there had been a mapping event, workshop and a steering group, which involved a wide range of organisations to develop the Strategy. It was recognised that it was important that the Falls Strategy would be joined up with other similar Strategy documents and the good work that was ongoing in this area would be scrutinised with a future report brought back to the Board.

Arising from the discussion, Rachel Macdonald requested that she would like to attend future Falls Strategy development activities on behalf of community pharmacists.

RESOLVED: That the Board approved the updated version of the Falls Strategy 2018-2023.
