Agenda	Meeting Record	Action
1. Introduction.	<p>Apologies were received from Councillor Mrs. Cargill.</p> <p>SJ introduced the scheme to all present and spoke around the original Consultation plan. SJ explained some of the background to the scheme. He explained that the project arose from requests from the residents on the corner of Norton Lane near the junction with Castlefields Avenue South. A scheme was developed and an extension of the works was offered to Norton View if there was local support. This meant that a 20 mph zone could be offered to the whole estate.</p> <p>SJ apologised to the ward councillors for not being involved with the consultation.</p> <p>The consultation did reveal strong support in Norton Lane, mixed views in Stockham Lane and a majority against in Norton View.</p> <p>(AC entered the meeting)</p> <p>AC raised some objections regarding what budget was funding this project and raised concerns over the ward councillors not being involved at the beginning. SJ apologised again for the councillors not being involved and informed ward councillors the funding was from Local Safety Scheme budget.</p> <p>A petition received by the residents of Norton View was reviewed.</p>	

Agenda	Meeting Record	Action
<p>2. Review of Design Options and Consultation Issues Raised</p>	<p>Following the consultation the following main concerns where raised.</p> <ol style="list-style-type: none"> 1. Norton Lane / Castlefields Avenue South Junction – Most of the residents raised concerns over vehicles not stopping at the give way markings. 2. Norton Lane / Main Street Junction – A majority of residents were also concerned with vehicles not stopping at the give way markings. 3. St. Mary’s Primary School – Concerns regarding speeding along Castlefields Avenue South past the school and parents parking during home time. 	
<p>3. Recommendations made at Consultation Review</p>	<p>The following recommendations were made for AW to discuss with Cllr. Polhill to sign off the scheme.</p> <ol style="list-style-type: none"> 1. Traffic calming on Norton View to be discarded completely and on most of Stockham Lane. 2. A re-design of the scheme, concentrating on Norton Lane and Castlefields Avenue South junction. 3. Ward councillors to contact St. Mary’s Primary School regarding implementation of traffic management outside the school to be incorporated into the re-design of the scheme.
