## HWB19 ONE HALTON - PRESENTATION

An initial Plan was submitted to NHS England and had been subject to regular refresh.

For 2018/19 the Plan had been refreshed jointly with Warrington CCG as many of the aims and objectives and redesign initiatives were shared. However, the plan did

provide each Borough with specific detail.

It was noted that the Plan had been approved by the local multi agency stakeholder group – the Emotional Health and Wellbeing for Young Peoples Partnership Group, chaired by the CCG Clinical Lead for children Denise Roberts, Deputy Chief Nurse for the Halton CCG.

RESOLVED: That

1. the presentation be noted; and
2. the Board approve the refreshed Transformational Plan for CAMHS.

The Board was advised on the role of the SAB, a summary analysis of the data gathered and how this information was used to inform the work priorities for 2018-19.

RESOLVED: That the report be noted.

#### HWB23 CARE QUALITY COMMISSION (CQC) LOCAL SYSTEM REVIEW - PROGRESS REPORT

The Board considered a copy of the CQC Local System Review Progress Monitoring Report, which was presented for information. The CQC undertook a local system review in Halton in August 2017 and the system produced an action plan in response to the CQC's findings. Following a programme of 20 local system reviews, the Department of Health and Social Care had requested the CQC to produce progress updates for these. For Halton the progress report drew on:

- Halton's self reported progress against their action plan (31/10/18);
- CQC's trend analysis of performance against the England average for six indicators; and
- Telephone interviews with four system leaders involved in the delivery and oversight of the action plan.

With regard to the progress made against the six indicators, the CQC had stated that there had been no

significant changes in A&E attendances and emergency admissions since the review. In terms of Emergency admissions from care homes these had increased a little during 2017/18. Lengths of stay remained similar to the England average, whereas Delayed Transfers of Care and Emergency readmissions both increased and were higher than the England average.

In response to CQC's progress report, the local system responded to CQC with regard to some improvements:

- Emergency Admissions in quarter 3 and 4 of 2017/18 was actually below our long-term average; and
- Emergency admissions from care homes the gap between Halton and England was now half what it was two years ago, and Halton had been below their long-term average for 4 of the last 5 quarters.

The Board noted that CQC's review of progress on the action plan concluded that there had been good progress made in all of the areas, with a few actions highlighted as on-going or requiring further development.

RESOLVED: That the report be noted.

#### HWB24 CHILD DEATH OVERVIEW PROCESS & GOVERNANCE ARRANGEMENTS - PAN CHESHIRE WIDE

The Board considered a report of the Director of Public Health which proposed a number of recommendations regarding the implementation of the Children and Social Work Act 2017 revised statutory guidance in relation to the Child Death Overview Panel (CDOP).

As a result of the Children and Social Work Act 2017, Local Authorities, Clinical Commissioning Groups and Police forces have had to revise their current Local Safeguarding Children Board (LSCB) arrangements. As part of these changes they have also been required to establish Child Death Overview Panels (CDOP) as a distinct set of arrangements rather than a subgroup of the LSCBs.

Under the revised guidance the new Child Death Review (CDR) partners, the Local Authority (LA) and the Clinical Commissioning Groups (CCG) had statutory responsibilities to:

- Make arrangements to review all deaths of

children normally resident in the local area and, if they considered it appropriate, for any non-resident child who has died in their area;

- Make arrangements for the analysis of information from all deaths reviewed; and
- Prepare and publish reports on what they have done and effectiveness of arrangements.

The Board was advised that the current Pan Cheshire CDOP model which represented, Halton, Warrington and Cheshire West and East was working effectively and was in line with statutory guidance in relation to reviewing deaths and identifying local lessons. Guidance required 60 cases to be reviewed each year to be viable and CDOP reviews between 55-60 cases each year making a reasonable argument to maintain this footprint. Therefore, partners proposed that as part of the revised guidance for CDOP, the Pan-Cheshire model should be maintained.

In order to ensure that the CDOP continued to operate within Statutory guidance and met the needs of the CDR partners and the model supported the most effective response to Child deaths in the area, Partners would monitor its effectiveness over the next 12 months.

RESOLVED: That

1. Each area agrees to continue with a Pan-Cheshire CDOP approach and review effectiveness in January 2020 – this includes a commitment to the current funding and business support model;
2. The governance for CDOP develops a more effective relationship between the Local Safeguarding Children's Boards (LSCB) and Health and Wellbeing Boards (H&WBB) in line with local agreements;
3. CDOP Members for each area will take responsibility for reporting into the most appropriate local forum for their area to ensure necessary activity is undertaken; and
4. A workshop of CDOP members will review any required operational changes to be in line with statutory guidance such as the undertaking of thematic reviews, policy, and practice guidance amendments.

## HWB25 CHAMPS PUBLIC HEALTH COLLABORATIVE STRATEGIC DELIVERY PLAN

The Board considered a report of the Director of Public Health which provided an overview on the achievements and progress of the Champs Collaborative from April 2017 to April 2018.
