The NPPF para 34 and regulation 10a of the Town and Country Planning (Local Planning) (Regs 2012) informs that a 5 year review should be undertaken to maintain a Local Plan and ensure its policies are met.

Local Plan and ensure its policies are met.

- 3.5 Halton is due to start work on its partial review of the Delivery and Allocations Local Plan in April 2026, however given the capacity within the team some of the evidence-based documents will start to be reviewed earlier, such as the joint Waste Local Plan for Merseyside and Halton. 7.0 RISK ANALYSIS

7.1 An LDS is a statutory document. Not having an up to date LDS puts the Authority at the risk of legal challenge. Stakeholders are entitled to rely upon forward notice of the Local Plans that will be produced and may directly impact on their assets or business.

7.2 The LDS is an explicit commitment to the delivery of the Local Plan over a definite period. Not having a specific and relatively fixed work programme for Local Plan delivery means that resources are not prioritised and used as effectively as they could be.

7.3 The risk of not having an up-to-date Local Plan needs to be fully understood. Without a current Local Plan, the development industry has no certainty over where different types of land use will be permitted; appeals against refusal of planning permission are more likely to be upheld in the developer's favour with the possibility of costs awarded against the Council. An up-to-date Local Plan is needed to retain local control over decision making.

8.0 EQUALITY AND DIVERSITY ISSUES

8.1 Building stronger communities through community engagement and good planning is a key aspect of the Local Plan. The Council is already committed to equality regardless of age, sex, caring responsibility, race, religion, marital status, maternity issues, gender reassignment, socio economic need, sexuality or disability and these commitments are reflected in the Local Plan as far as is relevant. Planning Policy documents are subjected to Equality Impact Assessments during their production to ensure compliance.

9.0 CLIMATE CHANGE IMPLICATIONS

9.1 The LDS provides an opportunity to shape and manage future development and its impact on the Climate by encouraging the use of

new and innovative technologies to reduce its carbon footprint.
