### Comments on the above figures:

In overall terms spending in the third quarter is currently over budget. A revaluation of the business rates relating to Catalyst House and Rutland House has resulted in an increase in NNDR costs. Delays in relocating the personnel in Grosvenor House have resulted in additional Rent costs.

In addition Runcorn Market is still not fully occupied and therefore income from stallholder rents is lower than budgeted. There has also been a reduction in income from Widnes Market and income is expected to be lower than budget.

It is expected that the overall net spending will be above budget by the year end.
